Date Funded (first funding):	1/16/2009	City:	Auburn
Date Repaid¹:		State:	California
<sup>1</sup> If repayment was incrementa	al, please enter the most recent		

repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP). To answer that question, Treasury is seeking responses that describe generally how the CPP investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP investment was deployed or how many CPP dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP funds were outstanding).

Increase lending or reduce lending less	
than otherwise would have occurred.	

To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).	23 loans were originated due to CPP funds received as follows.  SBA Originations = \$871M  Commercial RE = \$6,897M  Commercial = \$2,268M
etc.).	The CPP funds received provided additional capital capacity for the Bank to purchase \$21M government guaranteed mortgage backed securities.

Community 1st Bank was able to avoid internal limitations on balance sheet growth during 2009 and to postpone a potential capital campaign.		
he Bank's assets increased during 2009 by \$27.4MM or 21%.	ice sneet growth during 2009 and to postpone a potential capital campaign.	

What actions were you able to take that you may not have taken without the capital infusion of CPP funds?	
As a result of the CPP infusion Community 1st Bank was able to take on significant core deposit growth in the local markets. This increase in deposits contributed to the increased lending and investment activity for the Bank in 2009. The Bank's deposits increased by \$27MM while decreasing out of area deposits by \$2.5MM during 2009. \$3MM of the loans originated during 2009 were to local non-profit organizations.	

Community 1st Bank of the community outreach program in the Bank's local markets. Some of the outreach programs include the formation of a disaster relief fund for local fire victims, a financial education program for local elementary students and an educational series for local business owners.	Please describe any other actions that you were able to undertake with the capital infusion of CPP funds.	
Secreta ID ACADI QUANTESA DIVINESA.	Community 1st Bank continued to create a positive community outreach program in the Bank's local markets. Some of the outreach programs include the formation of a disaster relief fund for local fire victims, a financial education program for local elementary students and an educational series for local business owners.	
	Series for focal business owners.
